TRADÚZCALO O HABLE CON ALGUIEN QUE LO ENTIENDA BIEN

The Boil Water Notice issued on Thursday, July 26, 2018 has been lifted effective today, Sunday, July 29, 2018, for the Beech Mountain Lakes Water System.

What happened? What is being done? When will the problem be corrected?

Due to the recent significant rainfall events, groundwater entered our clear well. After cleaning the clear well and flushing the system, two sets of samples were collected from the distribution system on Friday, July 27 and Saturday, July 28 and tested for total coliform bacteria. Results from both sets of samples were absent of total coliform bacteria on Sunday, July 29, 2018.

It is no longer necessary to use boiled water or bottled water for drinking, making ice, brushing teeth, washing dishes and food preparation.
